Departmental honors in Economics; Summa cum laude

June 2026

EXPERIENCE

TRIO Peer Mentor

September 2025 – June 2026

University of Oregon TRIO

Eugene, OR

- Managed a caseload of 6–10 mentees, providing guidance on campus resources, community engagement, academic and career planning, and skills for academic success
- Gave and received feedback on mentees' progress during regular group supervision meetings with 3–6 peer mentors
- Developed surveys and scheduled outreach to strengthen mentee engagement

Advancement Leadership Intern

September 2023 – June 2024

University of Oregon Advancement

Eugene, OR

- Contributed to projects across Campaign Reporting, Donor Recognition and Reporting, and the UO Alumni Association
- Built working knowledge of standards and practices within a centralized advancement and fundraising operation
- Used customer relationship management (CRM) data to review donor characteristics and assess the accuracy and appropriateness of outreach

- Analyzed historical campaign, development, and donor recognition data using Excel and Power BI
- Communicated findings through written, visual, and in-person presentations

Project and Communication Technology Specialist October 2021 – September 2022

Lane Community College

Eugene, OR

- Assisted with the college's transition to Watermark software for programmatic review and integrated planning
- Designed written, video, and visual communication materials
- Developed and implemented a procedure to input complex academic review data based on requirements set by faculty, administration, and accreditors
- Created an informational video ("What is Watermark?") that was later presented at Spring Conference 2023 and remains in use on Lane's Watermark webpage
- Collaborated across Environmental Scan and Portfolio Review subcommittees to scope research, evaluation, and communication work
- Worked with a cross-functional group of 12+ participants to plan research, synthesize findings, and develop evaluation processes
- Synthesized research on technological and social trends in small teams of 2–4 faculty and staff
- Contributed to the Technological and Social Trends sections of the LCC Environmental Scan Report 2022, informing institutional strategic priorities

Production Consultant

January 2021 – September 2021

Simplee Green, Inc

Eugene, OR

- Leveraged technology to devise workflow, scalable recipe calculator, production planning templates, and inventory management plan
- Evaluated and optimized workspace and equipment ensuring adherence to state regulatory standards of operation and cleanliness
- Created Standard Operating Procedures Guides for producing a line of 15 products and associated facilities procedures
- Performed cost analysis for specialty goods, assisting in decision-making and procurement of ingredients, equipment, and packaging

Head Baker

January 2018 – February 2021

Reality Kitchen Nonprofit

Eugene, OR

- Led development and testing of new/seasonal products according to wholesale customer requirements and retail demand
- Planned workflow and calculated recipes for bread production of 150 - 300lbs per day, including sandwich loaves, buns, and artisan specialties
- Delegated work and organized production team of 3-6 bakers
- Led instruction of groups of 8-12 program participants, and one-on-one, teaching baking fundamentals such as bread shaping and mixing methods of cakes and cookies

- Served on the Board of Directors, assisting in strategic planning of bakery and job-skills training programs through several organizational restructurings, including decisions regarding expansions of product line, the launch of a community subscription box service, and the integration of program participants with daily production

Pastry Chef

September 2017 – March 2018

Marche Provisions

Eugene, OR

- Produced component ingredients for restaurant's dessert service and cafe
- Self-managed production of specialty pastries for busy café storefront
- Managed production of artisanal breads in a collaborative team environment

Baker

January 2010 – March 2017

Publix Supermarkets

Tampa Bay area, FL

- Completed baking apprenticeship, cross-trained in roles across the department.
- Collaborated with department managers and team members to plan and maintain cross department merchandising opportunities on a weekly basis
- Engaged with planning and implementation of production and inventory management software
- Analyzed and reviewed quarterly bakery performance indicators and participated in problem solving to meet and exceed local and regional goals

SKILLS

- Microsoft and Google office suites, including Excel, PowerPoint, and SharePoint site management
- Developing proficiency with Tableau and Power BI
- Developing proficiency in statistical programming with R
- Working knowledge of Python, Julia, HTML, and CSS
- Spatial analysis and data visualization using ArcGIS Pro
- Integrated planning software: Watermark Insights
- Communication and project management platforms, including Zoom, Teams, Google Meet, Smartsheet, and Wrike
